

Use Case Canvas

Organization & Site Name

Use Case name, and project lead:

Date:

1. Problem Statement:

"HSE audits are no longer performed in person due to COVID restriction. Many remote sites have fallen behind on their monthly audits."

3. Existing Process:

How is the process currently performed?

4. Process using Mira:

How would activities performed with the Mira Platform take place to help provide the value add?

7. Risks:

What risks with changing the process to use Mira should be accounted for? Eg "Spotty wifi coverage across some sites. Social factors."

2. Objectives

What is the financial impact currently experienced in terms of downtime, resources, injuries, etc. that could be mitigated by adopting Mira.

8. KPI's (Trackable Data Points)

How could we track that the problem is being addressed effectively, that the Objectives are met and that the proposed solution is being adopted?

5. Key Stakeholders involved

"Operations Manager : John Doe"

6. Environment:

"Indoor/ Outdoor
Bright /Dark Lighting"

9. Milestones:

Are there any Key Pilot Milestones that need to be tracked to ensure the ROI is proven out?
